

## Beautiful Project Reports from **your** PPM Tool.

An overview of OnePager for IT professionals.

### Product Overview

OnePager Pro, Express, and Bundle are project reporting software packages that engage project teams and hold their attention with rich, data-driven project timeline views. OnePager saves project managers time and effort compared to manual reporting solutions.

### Editions and Integrations

OnePager works by importing read-only data from the PPM/CWM tool of your choosing:

	OnePager Bundle	OnePager Pro	OnePager Express
Microsoft Project (MPP)	✓	✓	
Project Online/Server (PWA)	✓	✓	
Planner	✓	✓	
Smartsheet	✓		
Planisware Enterprise	✓		
Primavera P6	✓		
Asana	✓		
Wrike	✓		
Excel	✓		✓

### Compatibility

Where a given OnePager edition above is indicated to work with a specific PPM platform, the following compatibility applies:

- **Microsoft Project:** Project Standard/Professional (desktop) or Project Server 2003-2021 (32 or 64-bit), or Project Online. Also supports Project Pro for O365 (Office 365)
- **Smartsheet:** Business or Enterprise subscription
- **Primavera P6:** XML or XER file format
- **Planisware:** Planisware Enterprise with OData access
- **Asana:** Basic, Premium, Business, or Enterprise subscription
- **Wrike:** Team, Business, Enterprise, or Pinnacle subscription
- **Microsoft Planner:** Formerly Project for the web: Project Plan 1, 3, or 5
- **Excel:** Microsoft Excel 2002-2021 (32 or 64-bit), Office LTSC, or Office 365
- **Operating System:** Windows XP, Vista, 7, 8, 10, or 11 (32 or 64-bit)

## System Requirements and Performance

OnePager uses minimal system resources to create its charts:

- Minimal memory (100 MB) and disk space (100 MB) required
- Will not interfere with other Office add-ins; Add-ins for Project or Excel can also be disabled as needed.
- Requires .NET Framework 4.7

## Licensing

OnePager offers several licensing options:

- Single-user licenses (machine-specific keys)
- Volume licenses (organization-wide keys)

Machine-specific keys can be requested via e-mail by either end users or IT personnel, and can be reissued to support hardware and OS upgrades.

For volume licensing information, please contact [sales@onepager.com](mailto:sales@onepager.com).

## Installation and Deployment

OnePager is designed so that it can be easily installed by either IT personnel or end users:

- Installed via standard MSI file compatible with all desktop-management software.
- Installation locations follow Microsoft User-Account Control recommendations.
- Documentation set includes read-me file, quick-start guide, user manual, and online FAQ.

OnePager personnel regularly works with IT departments and their managed application deployment and imaging processes to enable custom installs of its products.

## Maintenance and Support

OnePager offers subscriptions to its comprehensive maintenance and support program, which includes:

- Same-day phone and e-mail support for IT personnel or end users
- Complimentary upgrades as new versions are released (optional; no forced downloads)

Maintenance and support can be renewed annually to ensure that end users always have the most current maintenance and support has expired. Contact us for more information.

## Security

Our team works with third parties to ensure the secure operations of its products:

- Microsoft Authenticode digital signature guarantees safe installation
- Microsoft strong naming prevents executable tampering
- Microsoft Platform Test (VeriTest) third party vulnerability testing
- Usage data never transmitted back to OnePager
- OnePager's servers do not store or receive confidential customer data.

## Intellectual Property

OnePager is protected by US Patents 7,999,810, 8,553,039, 9,251,487, 9,535,893, 10,282,688, 10,380,772, and 11,016,651.
