

Plan Communications Made Easy.

Get your message across more effectively with OnePager - the ultimate project visualization and timeline summary creation tool for Microsoft Project and Excel.

Create simple, beautiful Gantt charts that are ready to present in PowerPoint in a few minutes. OnePager is used by PMOs worldwide to create standardized timeline graphics while saving time, money, and frustration. Never build a Gantt chart or timeline summary by hand again!

Why OnePager?

- Improve overall project performance and adherence to deadlines
- Improve accuracy in project reporting
- Deliver consistent, informative project presentations
- Build credibility for the project management team and PMO
- Build project visuals in minutes, not hours

Project	Y1				Y2								
	Q3	Q4			Q1			Q2			Q3		
	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep
Project One													
Project Two													
Project Three													

"My challenge was to find a way to develop project presentations in a consistent format and one that provided enough information for management to understand the status of the program. OnePager Pro works seamlessly with Project Server and has become the standard for our programs."

- Scheduling Manager, Aerospace & Defense

"As a research-focused team, we are under constant pressure to deliver projects on time so that we can be first to market with new products. We use OnePager Express with Planisware to present our product development schedules to regulators, which speeds their approval process."

- Vice President, Portfolio Management, Pharmaceutical Company

"By sharing a custom report showing upcoming project events with the team, our efforts are focused on solving issues and addressing risks. Team members have told me they are the best project reports they've ever seen."

- PMO Director, Financial Services

"We are always competing for new contracts. OnePager Pro lets us present prospective clients with an easy-to-understand Microsoft Project schedule alongside our RFP response. OnePager helps us win new business and retain existing customers."

- VP, Business Development, Professional Services Firm

Available Editions

OnePager Pro is a Microsoft Project reporting tool that creates timelines for presentations to executives, project teams or the PMO. Whether you need to report on a single project or a multi-project portfolio, OnePager Pro gives you customizable, data-driven reporting with the ability to export directly to PowerPoint. OnePager Pro also integrates directly with Project Online and Project Server for PPM implementations.

OnePager Express uses the data contained in your Excel worksheets to build Gantt charts and timelines, complete with swimlanes and color-coding. OnePager Express is ideal for simple schedules that do not require the advanced features of Microsoft Project, or for creating professional plan communications using data exported from project management tools like Primavera P6, Planisware or Planview.

Pricing Information

Both editions of OnePager are sold as perpetual seat licenses, with OnePager Bundle available for organizations who need OnePager to work with both Microsoft Project and Excel. Quantity discounts are offered for organizations that wish to purchase multiple licenses. Enterprise licenses are also available; please contact your sales representative or email sales@onepager.com for more information.

All OnePager licenses include a 1-year subscription to maintenance and support, which covers all major and minor upgrades plus unlimited access to expert phone and e-mail support. Maintenance and support may be renewed after the first year to continue access to these services.

Custom training is also available, both on-line and on-site; email sales@onepager.com to learn more.

	OnePager Pro (MS Project)	OnePager Express (Excel)	OnePager Bundle (MS Project & Excel)
